Phil Wartel
Procurement Officer

18-12 Town Hall VRF Retrofit Project

Addendum #2

The original specifications dated March 7, 2018 for the above-noted project are amended as noted in the addendum #2

Receipt of this addendum shall be acknowledged by inserting its number on the bid form in the space provided.

This addendum is issued for the purpose of amending the requirements of the contract documents and is hereby made part of the contract drawings and specifications to the same extent as though it were fully incorporated therein.

Failure to acknowledge any addendum may be cause for rejection.

Item #2

Has the building been tested for asbestos?

Testing will occur before May 1st.

Please confirm that the new condensing units can be located in the back of the building between the Generator and the building's west wall.

Yes, the preference is to locate the units on the west side of the building to the left of the rear entrance door to Town Hall.

We need to know the official start date please.

The installation will begin on May 15th or at a mutually agreed upon earlier date, if possible.

Where would you like the central controllers installed?

For quoting purposes the preferred location will be in the mailroom area of the basement. The specific location within this area will be determined at a later date.

Could we get a picture of the stored condensing units including the sealed piping connections?

Pictures are attached.
