Dr. Doyle-

#### Summary:

Voted not to support on 1/11/2017 Board of Health meeting; Vote taken after 2 public meetings 10/13/16 and 12/07/2017; Heard expert opinion from John Fisher, DDS Former president, who spoke in favor; Dr. Mark who opposed

Featured Speakers: Sayer, Holley, Jessica Ca-FCCHC, C.Volpe RN BSN, Rosenberg, numerous citizens who voiced concerns

\*\*BOH reviewed tons of info studies, letters, most citizens opposed; background- repeated last 40 years; CHIP identified poor oral health; Ed Sayer- requested BOH to look into water fluoridation; BOH has authority.

Hotly debated in 1968, 1976, &1996

3 Times since late 60's; defeated by citizen vote in

**2017- Current BOH voted against 2-0; Board Strongly voted against.**

- Why? – Dr. Doyle relied heavily on CDC – Community Preventative Task Force Study 2013 – Fluoridation is effective and carries no harm
  - Uptick in fluorosis
  - 15% effectiveness of fluoridation – Underwhelming and lower in other studies; limited data, effectiveness of other fluoride sources (i.e. toothpaste)
  - Tabled
  - -not enough evidence to determine effectiveness of water fluoridation in disparities (poor vs rich, ect); Studies lacked consistencies
  - -\$ price, Mr. Holley = \$750,000 – lot of \$
  - Public Comments – those against came out in force
- Public should not be medicated “lack of informed consent” should not mass medicate to benefit the few” educate the parents and kids

Dr. Doyle- Has doubts

TM- Overwhelming cost, huge factor; believer in informed consent; 15% very underwhelming vs. cost to implement program

SA- states didn't add up to equal a benefit to town; opinion at 1<sup>st</sup> in favor; but perspective changed as board researched; open meetings were helpful

NZ- food processors; wasn't on radar

Aviva- Boards role to look @ alternatives

Dr. Doyle- Board very supportive of CHC oral health program; new patient sources, rinses, pills; new technology with sealants, work on adult teeth add 8-10 years – prevent cavities; BOH look at how to help. Bring procedures into schools via qualified people. Thank everyone – professional and residents; appreciate of all the letters hopefully vote is justified.
