Discussion Item 1	Contract Negotiations- Discussion regarding the Non-Exclusivity of License language. Request was made to replace language in new draft contract with language from previous contract. Main issue cited was new language takes out "good faith negotiations" over differences clause. CAC wanted that returned to document. Discussion also regarding the PEG Access Capital Support. CAC requested amount be restored to the \$180K amount from the \$100K amount offered by Comcast. Further discussion regarding the pass through for this amount centered on the fact that with more subscribers, CAC believed that the cost per subscriber should decrease even though the PEG Access Capital Support remains the same.
