

Point Paper #12 Nash's Mill Bridge

We don't have a lot to do with this project at this time. The project was bid on June 15 and Mass Highways is currently going through the contract awarding process. As soon as they have a pre-construction meeting we will be able to give you more detail on when the bridge will be closed down and what the expected schedule will be. Once the road is closed we will remove our traffic signals and store them. At the end of the bridge construction the City has agreed to extend the sidewalk into the pool area and a capital request should be placed next year. I have a rough estimate of \$50,000 but Nick and his crew need to design and develop a new estimate for this work. The point of contact from Mass Highways is James Dalton e-mail james.m.dalton@state.ma.us and his tel # is 857 368 9313 and for the DPW is Nick Reitzel.
