### **RFP 16-01** **INSTALLATION OF PILOT WIRELESS NETWORK** **ADDENDUM #2**

The following should clarify several issues that arose during the pre bid conference:

1. The Town has decided to use its own personnel to install any fiber. The installation requested in the RFP is for wireless only.
2. Two (2) lamp post schematics have been produced and are available on the Town's website as promised.
3. A standard form of contract will be posted by Wednesday, July 22<sup>nd</sup>.
4. To develop a shortlist of proponents, the Town will determine the most advantageous proposals taking into consideration the evaluation of the Non-Price and Price proposal. The successful proponent will show the ability to provide all technical requirements as outlined in the RFP and the ability to meet the time constraints of this pilot program (install in 45-60 days from Notice to Proceed). The shortlisted candidates will be asked to interview.
